

## Complete Production Floor Integration

See how Evapco SelectTech can help integrate a production line into one seamless system.

# FOOD PROCESSING

**Process Operations:** Evapco SelectTech is devoted to developing and designing automated control systems that provide efficient and reliable solutions for food manufacturing processes. Evapco SelectTech's solutions achieve the safe, stable operation required by the demanding needs of:

- ◆ Ingredient Processing
- ◆ Cooking / Oven Control Systems
- ◆ Clean In Place Systems
- ◆ Batching
- ◆ Product Chilling & Freezing
- ◆ Production Control Systems

## System Solutions

- ◆ PLC, HMI, SCADA-Based Controls
- ◆ Flow / Fluid Control
- ◆ Instrumentation Control
- ◆ Optical Scanning
- ◆ Temperature Controllers
- ◆ In-Line Weight Recording/Verification

Evapco SelectTech delivers a **total coordinated turnkey approach** to projects. This thorough methodology creates a cost-effective, detailed, and reliable system even in the most challenging circumstances.

**Additional Services:** Evapco SelectTech is a full service industrial integrator specializing in a wide range of services in addition to food processing.

### ◆ Facility Controls

Chillers, Blast Cells,  
Compressors, Condensers,  
Evaporators, Heat Exchangers

### ◆ Air Handling

Air Balancing,  
Air Units, Burner Retrofits,  
Humidity Control

### ◆ Ammonia Controls

Evaporators, Heat Exchangers,  
Compressors, Condensers,  
Chillers, Blast Cells

### ◆ Client Services

Project Coordination,  
Project Management,  
Design, Installation Startup

# CAPABILITIES

## Automation and Integration Solutions for the Food Processing Industry From service projects to building a bridge as a complete solution

Since 1992, Evapco SelectTech has helped customers achieve more efficiency and increase performance throughout their food processing systems. Our team has comprehensive industry experience and has earned a reputation for innovative, cost-effective solutions, complete integration, and responsive service.

As a systems integrator specializing in design-build installation, production line automation, process systems, material handling, and plant facility/utility systems, our comprehensive capabilities include:

### Support Services

- Upgrade / Retrofit of Existing Control Systems
- Information Technology Support
- Complete System Design & Build
- PLC Platforms
- Post Project Support

### Process Integration

- Information Technology Integration
- Product Chill & Freeze Systems
- Production Line Integration
- Continuous Cook Systems
- Process Automation

### Facility Controls

- Air-Water-Gas-Steam Systems
- Sanitary Air Handling Systems
- Dehumidification Systems
- Ammonia Refrigeration
- Waste/Wastewater

### Material Handling

- Palletizers
- Case Conveyors
- Stretch Wrappers
- Wash Down Conveyors
- Check-Weigh / Scale Systems

### Packaging

- Primary Packaging (RTE)
- Secondary Packaging
