

Complete Production Floor Integration

Evapco SelectTech can help integrate a production line into one seamless system.

LINE INTEGRATION

Production Line Integration: Evapco SelectTech works with major food manufacturers to design, integrate, and startup automated systems for continuous production lines. Evapco SelectTech's complete integration project management provides the following:

- ◆ Production Line Layout
- ◆ Mechanical Install of Equipment
- ◆ Electrical & Mechanical Design
- ◆ Control Panel Assembly & Testing
- ◆ Startup & Commissioning
- ◆ Electrical System Installation
- ◆ Post Tuning of System Operation
- ◆ Training of Maintenance Personnel

Superior Results: Evapco SelectTech delivers a **total coordinated turnkey approach** to projects. This strategy creates a cost effective, detailed, and reliable system even in the most challenging situations.

Evapco SelectTech's automation solutions set a benchmark for production lines. Evapco SelectTech's single source responsibility for the entire system **eliminates confusion between vendors on the project.**

Additional Services: Evapco SelectTech is a full service provider specializing in a wide range of services in addition to production line integration.

◆ Facility Controls

Chillers, Blast Cells,
Compressors, Condensers,
Evaporators, Heat Exchangers

◆ Air Handling

Air Balancing,
Air Units, Burner Retrofits,
Humidity Control

◆ Process Controls

Clean In Place Systems,
Production Control Systems,
Product Chilling, Oven Control

◆ Client Services

Project Coordination,
Project Management,
Design, Installation Startup

CAPABILITIES

Automation and Integration Solutions for the Food Processing Industry From service projects to building a bridge as a complete solution

Since 1992, Evapco SelectTech has helped customers achieve more efficiency and increase performance throughout their food processing systems. Our team has comprehensive industry experience and has earned a reputation for innovative, cost-effective solutions, complete integration, and responsive service.

As a systems integrator specializing in design-build installation, production line automation, process systems, material handling, and plant facility/utility systems, our comprehensive capabilities include:

Support Services

- Upgrade / Retrofit of Existing Control Systems
- Information Technology Support
- Complete System Design & Build
- PLC Platforms
- Post Project Support

Process Integration

- Information Technology Integration
- Product Chill & Freeze Systems
- Production Line Integration
- Continuous Cook Systems
- Process Automation

Facility Controls

- Air-Water-Gas-Steam Systems
- Sanitary Air Handling Systems
- Dehumidification Systems
- Ammonia Refrigeration
- Waste/Wastewater

Material Handling

- Palletizers
- Case Conveyors
- Stretch Wrappers
- Wash Down Conveyors
- Check-Weigh / Scale Systems

Packaging

- Primary Packaging (RTE)
- Secondary Packaging
