

Sorters, Conveyors and Wrappers

Evapco SelectTech can help integrate a material handling line into one seamless system.

MATERIAL HANDLING

Material Handling: Evapco SelectTech has engaged in numerous large and small scale material handling projects. These projects have included conveyor systems that transport material to the point of use in the production process, as well as a wide variety of supplemental material handling equipment to get the customers product from packaging to final storage and distribution.

Core Competencies

- ◆ Material Handling
- ◆ Accumulation Systems
- ◆ Stretch Wrapping
- ◆ Case/Pallet Scanning Systems
- ◆ Case Conveyance
- ◆ Standard & Robotic Palletizing
- ◆ ID/Vision Systems
- ◆ Case Sortation

Evapco SelectTech delivers a **total coordinated turnkey approach** to projects. This thorough methodology creates a cost-effective, detailed, and reliable system even in the most challenging circumstances.

Additional Services: Evapco SelectTech is a full service provider specializing in a wide range of services in addition to material handling

◆ Facility Controls

Chillers, Blast Cells,
Compressors, Condensers,
Evaporators, Heat Exchangers

◆ Air Handling

Air Balancing,
Air Units, Burner Retrofits,
Humidity Control

◆ Process Controls

Clean In Place Systems,
Production Control Systems,
Product Chilling, Oven Control

◆ Client Services

Project Coordination,
Project Management,
Design, Installation Startup

CAPABILITIES

Automation and Integration Solutions for the Food Processing Industry From service projects to building a bridge as a complete solution

Since 1992, Evapco SelectTech has helped customers achieve more efficiency and increase performance throughout their food processing systems. Our team has comprehensive industry experience and has earned a reputation for innovative, cost-effective solutions, complete integration, and responsive service.

As a systems integrator specializing in design-build installation, production line automation, process systems, material handling, and plant facility/utility systems, our comprehensive capabilities include:

Support Services

- Upgrade / Retrofit of Existing Control Systems
- Information Technology Support
- Complete System Design & Build
- PLC Platforms
- Post Project Support

Process Integration

- Information Technology Integration
- Product Chill & Freeze Systems
- Production Line Integration
- Continuous Cook Systems
- Process Automation

Facility Controls

- Air-Water-Gas-Steam Systems
- Sanitary Air Handling Systems
- Dehumidification Systems
- Ammonia Refrigeration
- Waste/Wastewater

Material Handling

- Palletizers
- Case Conveyors
- Stretch Wrappers
- Wash Down Conveyors
- Check-Weigh / Scale Systems

Packaging

- Primary Packaging (RTE)
- Secondary Packaging
