

From Engine Room to Refrigerated Space

Evapco SelectTech can help integrate refrigeration controls into one seamless system.

REFRIGERATION

Complete Integration: Evapco SelectTech designs, integrates, and manages start up for automated refrigeration systems. Evapco SelectTech provides integration services in the following major areas:

- ◆ Electrical Design
- ◆ PLC Control System
- ◆ Electrical System Installation
- ◆ Control Panel Assembly & Testing
- ◆ Startup & Commissioning
- ◆ Control Panel Assembly & Testing
- ◆ Post Tuning of System Operation
- ◆ Training of Maintenance Personnel

Superior Results: Evapco SelectTech upgrades and modernizes refrigeration control systems which **improve efficiency and enhance safety**, resulting in reduced electrical operating costs for facilities and safe working conditions for employees.

Evapco SelectTech delivers a **total coordinated turnkey approach** to projects. This creates a cost effective, detailed, and reliable system even in the most challenging situations.

Additional Services: Evapco SelectTech is a full service provider specializing in a wide range of services in addition to industrial refrigeration integration.

◆ Ammonia Controls

Evaporators, Heat Exchangers, Compressors, Condensers, Chillers, Blast Cells

◆ Air Handling

Air Balancing, Air Units, Burner Retrofits, Humidity Control

◆ Process Controls

Clean In Place Systems, Production Control Systems, Product Chilling, Oven Control

◆ Client Services

Project Coordination, Project Management, Design, Installation Startup

CAPABILITIES

Automation and Integration Solutions for the Food Processing Industry From service projects to building a bridge as a complete solution

Since 1992, Evapco SelectTech has helped customers achieve more efficiency and increase performance throughout their food processing systems. Our team has comprehensive industry experience and has earned a reputation for innovative, cost-effective solutions, complete integration, and responsive service.

As a systems integrator specializing in design-build installation, production line automation, process systems, material handling, and plant facility/utility systems, our comprehensive capabilities include:

Support Services

- Upgrade / Retrofit of Existing Control Systems
- Information Technology Support
- Complete System Design & Build
- PLC Platforms
- Post Project Support

Process Integration

- Information Technology Integration
- Product Chill & Freeze Systems
- Production Line Integration
- Continuous Cook Systems
- Process Automation

Facility Controls

- Air-Water-Gas-Steam Systems
- Sanitary Air Handling Systems
- Dehumidification Systems
- Ammonia Refrigeration
- Waste/Wastewater

Material Handling

- Palletizers
- Case Conveyors
- Stretch Wrappers
- Wash Down Conveyors
- Check-Weigh / Scale Systems

Packaging

- Primary Packaging (RTE)
- Secondary Packaging
