

Facility Controls: When Is It Time For A Tune-Up?
 Evapco SelectTech can help regain precision control over aging systems, and update them to current standards.

SERVICES

Complete System Diagnostics: Evapco SelectTech analyzes facility systems and methodically eliminates programming errors. System checkouts include but are not limited to the following:

- ◆ Air Balancing
- ◆ Air Handling Service Work
- ◆ High Efficiency Burner Retrofit
- ◆ Instrument & Sensor Calibration
- ◆ Ammonia Refrigeration Service Work
- ◆ PLC & HMI Programming / Updates

Cost Savings: Evapco SelectTech locates, identifies and prevents costly maintenance problems before they occur. Preventative measures save facilities valuable troubleshooting repair costs and improves equipment uptime and operational profitability.

Evapco SelectTech delivers a **total coordinated turnkey approach** to projects. This thorough methodology creates a cost-effective, detailed, and reliable system even in the most challenging circumstances.

Additional Services: Evapco SelectTech is a full service provider specializing in a wide range of services.

- ◆ **Facility Controls**
 Chillers, Blast Cells,
 Compressors, Condensers,
 Evaporators, Heat Exchangers
- ◆ **Air Handling**
 Air Balancing,
 Air Units, Burner Retrofits,
 Humidity Control

- ◆ **Process Controls**
 Clean In Place Systems,
 Production Control Systems,
 Product Chilling, Oven Control
- ◆ **Client Services**
 Project Coordination,
 Project Management,
 Design, Installation Startup

CAPABILITIES

Automation and Integration Solutions for the Food Processing Industry From service projects to building a bridge as a complete solution

Since 1992, Evapco SelectTech has helped customers achieve more efficiency and increase performance throughout their food processing systems. Our team has comprehensive industry experience and has earned a reputation for innovative, cost-effective solutions, complete integration, and responsive service.

As a systems integrator specializing in design-build installation, production line automation, process systems, material handling, and plant facility/utility systems, our comprehensive capabilities include:

Support Services

- Upgrade / Retrofit of Existing Control Systems
- Information Technology Support
- Complete System Design & Build
- PLC Platforms
- Post Project Support

Process Integration

- Information Technology Integration
- Product Chill & Freeze Systems
- Production Line Integration
- Continuous Cook Systems
- Process Automation

Facility Controls

- Air-Water-Gas-Steam Systems
- Sanitary Air Handling Systems
- Dehumidification Systems
- Ammonia Refrigeration
- Waste/Wastewater

Material Handling

- Palletizers
- Case Conveyors
- Stretch Wrappers
- Wash Down Conveyors
- Check-Weigh / Scale Systems

Packaging

- Primary Packaging (RTE)
- Secondary Packaging
